Kidnapped in Kansas City.
KANSAS CITY, Mo., April 3.—Samuel Jacobs reported to the police to-day that his three-year-old son had been stolen. Last night Jacobs and his wife went across the street to visit a sick woman. They left the baby asleep. When they returned home they found the baby crib empty with the bed clothes thrown over the footboard as if some one had hastily gathered up the child. The mother became hysterical and the father searched the premises, but no trace of the baby could be found. The police believe the boy was kidnapped.

Friends.
If the coming of Baby be contemplated by misgivings, worry and fear instead of joy and satisfaction, no mother can give to her child the greatest of all inheritances—good health and a happy disposition, for even the Romans knew that the mother's condition re-acts upon her offspring.

Every woman should know what she has learned from personal experience. It is this: Danger to both mother and child is banished, pain is greatly lessened, labor is shortened, as also the period of confinement, by taking Dr. Pierce's Favorite Prescription for some weeks before confinement. This wonder-working medicine, which is as easy to get as any drug store for fifty cents or one dollar.

To prove its wonderful merits you may have a single bottle and book telling all about it, both sent absolutely free by mail, if you mention The Keokuk Dispensary, your address to Dr. J. C. Watson, N. Y.

A Farmers' Alliance.
At the same time very resolutions, says the Farmer, was passed at the meeting, Ohio, County Association, week, as follows:

"Resolved 1. That for this year we will allow the government to be administered by the daily elected and sworn officers."

"Resolved 2. That we will produce the largest possible on our farms, at a minimum cost, and sell them for the highest price obtainable."

"That we will vote according to the wishes of our individual consciences."

Smith, a merchant living near Souque post office, in this county, and killed with balls and rocks. There is said to be something about the killing, but so far no arrest has been made and the particulars are not known. Mr. Smith is a prominent man in his section. Developments are watched for with interest. The sheriff and his deputies have gone to the scene of the killing.

A Bible Riddle—Can You Solve It?
EDITORS KEOKUK COURIER: Here is a Bible riddle for your readers:

There was one of old of whom the Bible told record always spoke the truth and never tempted the Lord; yet in Charles's time he was never at all. Will some one of your readers answer it?

I was reading an advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy in the Worcester Gazette, and I can truthfully say I never used any remedy equal to it for colic and diarrhoea. I have never had to use more than one or two doses to cure the worst case of colic or diarrhoea in my family.

Card of Thanks.
To the many kind and faithful friends in this county who have been so sympathetic and kind in showing me and my family, May peace and prosperity constantly attend you.

Respectfully,
G. W. WILLIAMS.

Card of Thanks.
On behalf of myself and family I desire to express heartfelt thanks for the kind offices and unceasing attention of the many friends and neighbors who ministered so tenderly during the protracted last illness of Mrs. Moss. To the physicians, friends and neighbors, who have been placed under high obligations that we never can forget.

RETURN, S. C., April 3.—The health of this community is good.

The wheat fields are looking green. Some one has been clever enough to assist Mr. Clifton Simpson in disposing of his fiddler. Such cleverness is not to be despised.

The farmers of this section, who have for some time been dead—"not dead, but asleep"—I'm glad to note, are now waking up to a sense of their duty, and going to building rock and building up the gullies and spilling sand from the upland into their bottoms by way of ditches, and supplying themselves with long needed farming tools.

Mr. Norton Cox is the leading farmer of this section. He has his farm nicely arranged and well furnished with all needed implements for the same, such as hay press, molasses mill, two-horse turner and blacksmith shop. Farmers, why not follow suit?

Mr. Davis passed through this section Saturday with a yoke of oxen purchased at Carnesville, Ga., by Mr. Orr Hamilton, of Seneca, valued at \$90, weighing near 2,000 pounds.

Mr. Luther Sanders made a flying visit to Toccoa, Ga., on Saturday.

Mr. Jack Miller, Miss Ora Simpson and Master Morris Miller visited with their friends and friends near Toccoa Saturday night and Sunday.

Mr. Jackson Sanders, of Seneca, is visiting his son, Mr. Tom Sanders, of this place.

A young man of this community went to see his best girl Sunday evening, when he was suddenly interrupted by a young friend riding up and saying, "One of your father's mules is sick and he wants you to go to Seneca for him. He bade her adieu and started hurriedly away. When he had gone some distance he was informed it was April, he determined not to be beaten and turned and went back."

Mr. Robert Lyles weighs 190 pounds. Mrs. Hayes says she has enough peas to carry him to 200 pounds.

Our Sunday school at this place is thriving and showing the fruits of the faithful workers who have shown by their daily walk what they are and whom they are living for—not for themselves, but for the upbuilding of others. The man who lives for himself bequeaths his own folly, poverty and meanness for his monument. He has benefited nobody, while he has dwarfed and warped his own powers, and senseless stone or marble, however lavishly supplied to mark his resting place, does him no honor. He has lived in himself, he has died in himself, and all that he leaves in memory of himself speaks no word of praise in his behalf, except a word of justice. This is no true life. It is a word of failures. There are glorious opportunities in this life for service. He who uses them as our church members are, enriches both his race and himself, while leaving a monument which outlasts marble and is brighter than polished brass. If Sunday school members were as anxious to harmonize as they are sometimes solicitous to disagree and produce friction, how smoothly and speedily would the machinery of the Ship of Zion roll on. Let us study the things that make for peace, the things whereby we may edify one another. Let children endeavor to create as little friction as possible where we are called to labor, and spend our days. Let us try and build up, and not tear down. Though we may have a few days or months to labor in a field, let us do our best to all, and leave unto the Lord the rest. FARMER CH.
